

DIGITAL — — SOCIAL INNOVATION

DSI4EU: Shaping the Future of
Digital Social Innovation in Europe

www.digitalsocial.eu

About the workshop —

Digital Social Innovation has been put on the map through the focus on Collective Awareness Programs. Today we are hosting a policy workshop concerning Digital Social Innovation for Europe. We bring together innovators throughout Europe and leaders from CAPS projects with European Commission Policy officials to get in touch, get inspired and connect your networks. By learning from each other, the community of digital social innovation will be able to grow further and stronger.

Next to growing communities and connecting networks, this workshop will bring you several clear examples of Digital Social Innovation in Europe, and teach you best practices and hands-on tips and tricks for DSI.

About DSI4EU —

DSI4EU is a support action in the H2020 Collective Awareness Platforms program. DSI4EU will support, grow and scale the current Digital Social Innovation network of projects, organisations, and individuals bringing together social entrepreneurs, hackers, communities and academics working on key DSI fields such as the maker movement, the collaborative economy, open democracy and digital rights. It will foster digital innovations for social good, helping communities share data, collaborate to solve societal problems, and scale their initiatives focusing on open and distributed technologies and new sustainable business models. Finally, it will represent the building blocks for a new participatory innovation model for Europe, a more decentralised web and an inclusive and sustainable society, including a radical approach to scaling, extending and connecting the DSI network in Europe.

Morning ---

- 09:30 **Doors open: registration, coffee/tea**
- 10:00 **Welcome by Frank Kresin (Waag Society)**
Opening by Nicole Dewandre (DG Connect)
- 10:15 **Panel: Impact of digital social innovation (DSI)**
Moderator: Robert Madelin (European Commission)
Francesca Bria (Barcelona City Hall)
David Cuartielles (Arduino)
Marleen Stikker (Waag Society)
Geoff Mulgan (NESTA)
- 11:15 **Coffee break**
- 11:30 **Panel: CAPS - Concrete examples of lessons learned**
Moderator: Fabrizio Sestini (European Commission)
Alexandre Pólvara (Making Sense)
Michelangelo Secchi (Empatia)
David Langley (Make It)
Vishal Kapadia (Wikirate & Chainreact)
Denis Jaromil Rojo (D-Cent)
Dr. Monique Calisti (Chic)
- 12:45 **LunchBreak exercise**

Fill the map

Afternoon

- 13:45 **Panel: Digital Social Innovation practitioners**
Moderator: Marleen Stikker (Waag Society)
Angel Sola (Cibervoluntarios)
Cheryl Miller (Digital Leadership Institute)
Ivonne Jansen-Dings (Code for All)
Justyna Swat (Wikihouse)
Liana Ganea (The Sponge)
- 15:00 **Coffee break**
- 15:15 **Breakout sessions:**
1 Robert Madelin & Geoff Mulgan - EU Policy
2 Xavier Troussard - Science
3 Zoe Romano & Serena Cangiano - Maker Movement
4 Marleen Stikker - The Commons
5 Katalin Gallyas - Civic Tech
6 Denis Jaromil Rojo - Tactical Technology
7 Angel Sola - Grass-roots Activism
- 16:30 **Conclusions and perspectives for DSI within Horizon 2020**
Moderator: Nicole Dewandre (DG Connect)
Feedback from breakout moderators
- 17:00 **Closing statement**
Frank Kresin (Waag Society)
- 17:15 **End**

David Cuartielles

David Cuartielles teaches interactive technologies at Malmö University's School of Arts and Communication, and is one of the co-founders of the open source platform Arduino. Cuartielles and his team share their discoveries with the rest of the world with the idea that open-source hardware is fundamental to the advancement of the world's technology.

Frank Kresin

Frank Kresin is Research Director at Waag Society, responsible for the research programme and chairman of the Management Team. He leads the programme group of Waag Society, which develops new projects and initiatives, where consortia are formed and financing is secured.

Robert Madelin

Robert Madelin has served in the European Commission since 1993 and since September 2015 is the European Commission's first ever Senior Innovation Adviser. He is currently also a visiting Research Fellow Cyberstudies at the Oxford University Department of Politics and International Relations.

Marleen Stikker

Marleen Stikker is founder of Waag Society. Marleen strongly adheres to the Maker's Bill of Rights motto "If You Can't Open It, You Don't Own It". Waag Society is actively involved in the Open Design and Creative Commons movement and believes that society needs open, fair and inclusive technologies to meet societal challenges.

Justyna Swat

Justyna Swat is a strategic designer at WikiHouse, an open source building system. WikiHouse enables designers to collaborate and make it simple for everyone to design, print and assemble beautiful, low-energy homes, customised to their needs.

Francesca Bria

Francesca Bria recently became Chief Technology and Digital Innovation Officer at the Barcelona City Hall. She has been a Senior Adviser and Senior Project Lead in the Nesta Innovation Lab and the Principle Investigator of the DSI project on digital social innovation in Europe.

David Langley

David Langley is a Senior Research Scientist at the leading Dutch applied research organization TNO. He leads national and European research projects and advises numerous firms and governments. He is also associate research fellow at the University of Groningen and writes a column in the Dutch Financial Times.

Katalin Gallyas

Katalin Gallyas is the founder of Civic Tech Amsterdam, connecting local governments to high potential tech start-ups that are rejuvenating policy. She moderates discussions and speaks at conferences about bottom-up, civic tech oriented smart cities.

Nicole Dewandre

Nicole Dewandre is advisor for societal issues to the Director General of the Directorate General for Communications, Networks, Content and Technologies (DG CONNECT) at the European Commission. She is now working on the societal interface of the Digital Agenda for Europe.

Fabrizio Sestini

Fabrizio Sestini is Senior Expert (Advisor) in Digital Social Innovation within the Net Innovation unit of DG CONNECT at the European Commission. He is leading the team managing the multidisciplinary initiative "Collective Awareness Platforms for Sustainability and Social Innovation".

Zoe Romano

Zoe Romano works on Digital Strategy & Wearables at Arduino. She co-founded Openwear.org, the European pilot project around collaborative fashion and open source branding, and Wefab.it, an initiative for the diffusion of open design and digital fabrication in Italy.

Ivonne Jansen-Dings

Ivonne Jansen-Dings will speak as representative of Code for All about the role civic technology and citizen lead smart city developments can have in relation to government. She is heading the Code for NL initiative in the Netherlands and enables 'code fellows' to collaborate with policy makers.

Angel Sola

Since 2007, Angel Sola is part of the Foundation Cibervoluntarios heading the international and communication area, branding and creative concept from the point of view of social action and NGOs. Angel is responsible for the concept and corporate image of the Foundation and of the social media strategy of Foundation Cibervoluntarios.

Cheryl Miller

Cheryl Miller is Founder and Executive Director of the Digital Leadership Institute, a Brussels-based, international NGO promoting inclusive digital transformation in strategic, innovative economic sectors. Specific initiatives of the Digital Leadership Institute include the AdaAwards.com, g-Hive.org, inQube.eu, DigitalMuse.org, Girls Code Europe and Women2020.org.

Vishal Kapadia

Vishal Kapadia is Executive Director of the Wikirate project, a community driven initiative to aggregate and analyse information about how sustainable companies are through the website <http://wikirate.org>. The aim of the project is to create crowdsourced, transparent company ratings based on publicly available information.

Liana Ganea

Liana Ganea is a free speech activist. In Romania she built ActiveWatch, focusing on protecting and promoting the right to freedom of expression and freedom of the press. Since 2014 she is also a secretary of Sponge, an experimental media lab, liaising with journalists, activists, developers, information designers, legal experts and students.

Mario Campalargo

Mario Campalargo is Director for Net Futures in DG CONNECT and is responsible for Research and Innovation on what lies beyond the current Internet architecture, software and services and the EU-Strategy for the Cloud.

Geoff Mulgan

Geoff Mulgan is Chief Executive of the National Endowment for Science Technology and the Arts (NESTA) and Visiting Professor at University College London, the London School of Economics and the University of Melbourne. Under his leadership Nesta has implemented a new strategy involving partnerships with other funders in the UK and internationally.

Denis Jaromil Rojo

Denis Rojo aka Jaromil is an Amsterdam-based artist, theorist and programmer. Inspired by Richard Stallman's 'Free Software' liberatory ethics, he seeks to cross borders between art and code, social activism, research and development, focusing on recycling of technology and its accessibility.

Xavier Troussard

Xavier Troussard joined the Joint Research Centre in 2014 to create and lead the development of the EU Policy Lab at the crossroads of anticipation disciplines (horizon scanning, foresight), behavioural sciences and design. He brings his experience in policy making at the EU level and his interest in creativity, legal and innovation.

Michelangelo Secchi

Michelangelo Secchi is a consultant on communication and stakeholder management for Governments, NGOs and Local Authorities in the areas of territorial development, democratic governance strategies, citizen engagement in policy making processes, and public sector accountability. He is working as Scientific Coordinator of the Horizon 2020 project EMPATIA.

Serena Cangiano

Serena Cangiano specializes in technology and communication of cultural heritage at the University of Lugano with a study about digital archives of interactive art. She is currently carrying out projects of applied research at the Interaction design lab at SUPSI.

Alexandre Pólvara

Alexandre Pólvara is a connector of people, things and information. Policy Analyst at the Joint Research Centre, European Commission, currently working at the EU Policy Lab and partner in the H2020/CAPS project "Making Sense".

The DSI4EU project is funded by the European Commission Directorate General for Communications Networks, Content & Technology, Net Futures, Administration and Finance, under Grant Agreement No. 688192
