Using the Epilog Print Driver

This section describes the installation of the Epilog Print Driver, which is necessary for printing on Epilog laser systems. The Epilog Print Driver allows users to print directly from various applications to the Epilog printer, ensuring high-quality output with precise control over the printing process.

To install the Epilog Print Driver:

1. Download the Epilog Print Driver from the Epilog website and save it to a convenient location on your computer.
2. Open the downloaded file and run the installation process.
3. Follow the on-screen instructions to complete the installation.
4. After installation, restart your computer to ensure the driver is properly registered.
5. Reboot your computer.

Once the installation is complete, the Epilog Print Driver will be ready to use for printing on your Epilog laser system.
